Hi Fred,

Thank you for responding.

The older I get, the more I consider acknowledgement, accountability and remorse the high marks of virtue. Fact is, you and I go back a ways. Before Resolution #114-95 even. I attempt to present courage, principle and honor, albeit imperfectly. Politically in particular, I'm not into going along to get along, and looking the other way.

I'm willing to interact with you most anytime. I hope to hear again from you soon.

Thank you.

Bob

Bob,

Oh, heck yes. You probably still live under the very mistaken impression that anyone thinks you are a serious or thoughtful person.

Fred,

Is that how you know me? I don't think so.

Thank you.

Bob,

What part of your very seriously twisted mind led you to believe that I am even the slightest bit interested in anything you have to say about anything.
